Diabetes Medical Management Plan (DMMP)

This plan should be completed by the student's personal diabetes health care team, including the parents/guardians. It should be reviewed with relevant school staff and copies should be kept in a place that can be accessed easily by the school nurse, trained diabetes personnel, and other authorized personnel.

Date of plan:	This plan is vali	d for the current school year:

Checking blood	glucose					
Brand/model of blood	glucose meter:					
Target range of blood	glucose:					
Before meals: □ 90-	-130 mg/dL □ Othei	r:				
Check blood glucose le	evel:					
☐ Before breakfast	☐ After breakfast		Hours after breakfast	□ 2 ł	nours after a cor	rection dose
☐ Before lunch	☐ After lunch		Hours after lunch	□ Ве	fore dismissal	
☐ Mid-morning	☐ Before PE	☐ After	PE	□ Ot	her:	
☐ As needed for signs,	/symptoms of low or h	nigh blood	glucose	□ As	needed for sign	s/symptoms of illness
Preferred site of testir	ng: ☐ Side of fingerti	p □ Oth	ner:	_		
Note: The side of the fi	ingertip should always	be used t	o check blood glucose lev	vel if hy	poglycemia is s	uspected.
Student's self-care blo	ood glucose checking s	kills:				
☐ Independently chec	ks own blood glucose					
☐ May check blood glo	ucose with supervisior	ı				
☐ Requires school nur	rse or trained diabetes	personne	el to check blood glucose			
\square Uses a smartphone	or other monitoring to	echnology	to track blood glucose va	alues		
Continuous glucose m	onitor (CGM): 🗆 Yes	s □ No	Brand/model:			
Alarms set for: Sev	ere Low:	Lov	v: Hi	igh:		
Predictive alarm: Low	v: Hi	gh:	Rate of change	e: Low:		High:
Threshold suspend set	ting:					
CGM may be used for	insulin calculation if gl	ucose is b	etween mg/dL _	Yes	No	
CGM may be used for	hypoglycemia manage	ment	Yes No			
CGM may be used for	hyperglycemia manag	ement	_ Yes No			
 Do not disconnect If the adhesive is p If the CGM becom Refer to the manual 	should be given at leas t from the CGM for spo beeling, reinforce it wi les dislodged, return e lfacturer's instructions	t three incorts activite the approverything on how to the three th	ches away from the CGM ties.	s. Do n ce.	ot throw any pa	
The student troubles	hoots alarms and malf	unctions			☐ Yes	□No
	hat to do and is able t		h a HIGH alarm.		□ Yes	□No
	hat to do and is able t	o deal wit	h a LOW alarm.		☐ Yes	□ No
The student knows w		- Mindica	tes a rapid trending rise o	or	☐ Yes	□ No
fall in the blood gluco		Jivi iliaica	tes a rapid trending rise t	01	☐ Yes	□ No
The student should be	escorted to the nurse	if the CGI	M alarm goes off: ☐ Yes	s 🗆 N	0	
Other instructions for	the school health tean	n:				

Hypoglycemia treatment				
Student's usual symptoms of hypo	glycemia (list below):			
If exhibiting symptoms of hypoglyc product equal to grams of o		vel is less tha	nmg/dL,	give a quick-acting glucose
Recheck blood glucose in 15 minute	es and repeat treatment if b	lood glucose	level is less than	n mg/dL.
Additional treatment:				
If the student is unable to eat or d movement): • Position the student on his or leading to the student or leading to t			is having seizure	e activity or convulsions (jerking
Administer glucagon				
Injection:				
□ 1 mg	□ ½ mg □ Ot	her (dose)		
• Route:	☐ Subcutaneous (SC)			
 Site for glucagon injection: 	☐ Buttocks	☐ Arm	☐ Thigh	☐ Other:
Nasal route:				
☐ 3 mg				
Route:Site:	□ Intranasal (IN) □ Nose			
 Call 911 (Emergency Medical S Contact the student's health ca If on insulin pump, stop by place 	are provider.	_		vith EMS to hospital.
Hyperglycemia treatment				
Student's usual symptoms of hype	rigiyceriila (iist below)			
Check ☐ Urine ☐ Blood for For blood glucose greater than insulin (see correction dose or Notify parents/guardians if blooms for insulin pump users: see Additional	ders). ood glucose is over Iditional Information for State the bathroom.	st hour mg/dL. udent with In	rs since last insul	in dose, give correction dose of
Additional treatment for ketones:				

• Follow physical activity and sports orders. (See Physical Activity and Sports)

If the student has symptoms of a hyperglycemia emergency, call 911 (Emergency Medical Services) and contact the student's parents/guardians and health care provider. Symptoms of a hyperglycemia emergency include: dry mouth, extreme thirst, nausea and vomiting, severe abdominal pain, heavy breathing or shortness of breath, chest pain, increasing sleepiness or lethargy, or depressed level of consciousness.

Insulin therapy			
Insulin delivery device:	☐ Syringe	☐ Insulin pen	☐ Insulin pump
Type of insulin therapy at school:	☐ Adjustable (basal-bolus) ins	sulin	y 🔲 No insulin
Adjustable (Basal-bolus) Insulin T • Carbohydrate Coverage/Corr	• •		
• Carbohydrate Coverage:			
Insulin-to-carbohydrate rati	0:		
Breakfast: 1 unit of insulin p Lunch: 1 unit of insulin per Snack: 1 unit of insulin per			
	Carbohydrate Dose Ca	culation Example	
Total Grams of Carbo	ohydrate to Be Eaten ÷ Insulin-	to-Carbohydrate Ratio =	_ Units of Insulin
Correction Dose: Blood glucose co	prrection factor (insulin sensitiv	ity factor) = Target blo	ood glucose =mg/dL
	Correction Dose Calcu	llation Example	
(Current Blood Gluco	ose — Target Blood Glucose) ÷ C	Correction Factor = Unit	s of Insulin
Correction dose scale (use instead	of calculation above to determ	nine insulin correction dose):	
Blood glucose to mg	g/dL, give units E	Blood glucose to	mg/dL, give units
Blood glucose to mg	g/dL, give units E	Blood glucose to	mg/dL, give units
See the worksheet examples in Adv instructions on how to compute the	=	=	
When to give insulin:			
Breakfast			
☐ Carbohydrate coverage only			
☐ Carbohydrate coverage plus collast insulin dose.	rrection dose when blood gluco	se is greater than mg/d	L and hours since
☐ Other:			
Lunch			
☐ Carbohydrate coverage only			
☐ Carbohydrate coverage plus collast insulin dose.	rrection dose when blood gluco	se is greater than mg	/dL and hours since
☐ Other:			
Snack			
\square No coverage for snack			
☐ Carbohydrate coverage only			
☐ Carbohydrate coverage plus collast insulin dose.	rection dose when blood gluco	se is greater than mg	/dL and hours since
☐ Correction dose only: For blood	d glucose greater than	mg/dL AND at least he	ours since last insulin dose.
☐ Other:			

Insulin therap	oy (continued)			
Fixed Insulin Thera	apy Name of insulin:
